Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Applicant requested information regarding progressing toward an interference against the Gao patent cited in the Office Action. The examiner informed Applicant that first, Applicant's claims must be in condition for allowance; second, Applicant's claims must overlap with those of Gao and a declaration must be submitted regarding the date of reduction to practice of the instant invention. The examiner stated that the instantly claimed invention does not conflict with the invention of Gao because the Gao patent is drawn to a method while the instantly claimed invention is drawn to a device..
